Effective Date:

5/1/2019

Background:

The United States (U.S.) Repatriation Program was established in 1935 by the federal Social Security Act and assists U.S. citizens and their dependents to return to the U.S. when they become destitute or ill in a foreign country, or because of war, threat of war, invasion or similar crisis, and are without available resources. The citizens are identified by the U.S. Department of State (DOS) as having returned or been brought from a foreign country to the U.S.

The Group/Emergency Repatriation Program provides emergency evacuation of U.S. citizens overseas due to conditions of war, threat of war, invasion, natural disaster, or a Presidential Declaration of National Emergency.

Repatriation Program services and cash assistance are 100 percent federally funded. However, assistance given under this program is a loan which must be repaid to the U.S. government. Individuals requesting Repatriation Program assistance are required to sign a repayment agreement.

Note: The San Diego County Adult Protective Services (APS) Program is responsible for the provision of these services in San Diego County.

This section was revised to include specific intake forms.

Policy:

Effective April 1, 2010, ISS coordinates payment of services with the counties.
- The County Department of Social Services (CDSS) provides direct services to the repatriates.
