**A. Background:**

This section provides the information on the tracking of CAPI cases on the Medi-Cal Eligibility Data System (MEDS).

**Purpose:**

This section is updated for sunset review. No Program rules have changed.

**B. Policy:**

Ensure that CAPI cases are included on MEDS. Clear MEDS two State business days after the case is granted to ensure that the case is on MEDS. Review MEDS information, as noted below.

**1. Aid Codes**

The aid codes below are entered into MEDS for all CAPI cases. These are not Medi-Cal aid codes; they do not provide Medi-Cal eligibility. These codes are for tracking purposes only.

**2. Purpose of Tracking**

The purpose of entering these aid codes into MEDS is to:

- Alert counties in some cases of SSI/SSP eligibility
- Provide case management information for CAPI.

**C. Procedure:**

Take the actions in the table below regarding following up on reported information.

<b>Step</b>	<b>Action</b>
1	Clear MEDS (INQM screen), as appropriate (for example, redetermination or upon receiving information about a recipient's receipt of SSI/SSP), to determine when individuals become eligible for SSI/SSP and discontinue CAPI cases.
2	Follow up on any discovery through MEDS (INQ1, INQ2 or INQ3 screen) of receipt of CAPI in another county.
3	Complete a Case Comment, as appropriate.
4	Investigate and correct any MEDS errors.

1. **MEDS Worker Alerts**

CAPI eligibility shown on MEDS is for tracking purposes only and should not affect Medi-Cal eligibility or Medi-Cal aid codes. However, MEDS transactions caused by entries on a CAPI case may cause MEDS errors and generate MEDS Worker Alerts. In addition, eligibility information sent to MEDS from CAPI cases will be linked, through the individual's Social Security Number (SSN), to any other CalFresh or Medi-Cal eligibility that already exists on MEDS. Communicate with workers holding companion cases to resolve MEDS errors.

**Other Program Impacts:**

None.
