

90-750.3. PRE-APPLICATION

A. General

This section provides the pre-application procedures for the GR IP.

B. Policy

A person who appears otherwise eligible to GR will be referred to intake for the IP when:

- the person indicates receipt of disability-based income
 - the income is expected to last through the intake appointment
 - the person indicates the ability to verify the disability-based income.
-

C. Procedures

Existing pre-application procedures apply for the IP. An exception is when the person indicates the ability to verify the disability-based income; the medical verification procedures will be waived. However, the applicant is to be informed that if verification cannot be provided by the intake appointment, the person will be considered AB until the verification is obtained or the person provides medical verification for consideration as UE.
